SWIM SAFETY

Cool off safely with Baltimore City Department of Recreation and Parks! As you head for the pools this summer, remember that swimming accidents can happen quickly. So before you "take a dip," get the facts on how to keep yourself and loved ones safe and healthy. Baltimore City Department of Recreation and Parks recommends the following safety tips:

- Learn to swim
- Swim in the presence of a lifeguard
- Never swim alone
- Don't swim in unknown waterways or use fire hydrants to cool off
- Look for, read and obey all pool safety signs and symbols
- Parents, guardians or caregivers should supervise children closely, even when lifeguards are present
- Alcohol and swimming don't mix
- Protect your head
- Feet first into the pool
- If you are in trouble, call or wave for help
- Follow regulations and lifeguard directions
- Report hazardous conditions to lifeguards
- Know your swimming ability
- If In Doubt, Just Stay Out!

WATER-RELATED INJURIES

- In 2004, there were 3,308 fatal drownings in the U.S., averaging nine people per day.
- Drowning often occurs in unattended pools and open water areas such as lakes and rivers.
- Nonfatal accidents can cause brain damage that result in long-term disabilities.
- Alcohol use is involved in about 25% to 50% of adolescent and adult deaths associated with water recreation.

GROUPS AT RISK

- **Males:** In 2004, males accounted for 78% of fatal drownings in the U.S.
- **Children:** Drowning remains the second-leading cause of accidental death for children.
- **African Americans:** The drowning rate for African Americans was 1.3 times higher than for whites. African-American children, from the ages 5 to 14, were three times more likely to drown than whites.

AQUATICS DIVISION

Darryl Sutton, Aquatics Manager

3301 Waterview Ave.

Baltimore, MD 21230

(410) 396-3838 or (410) 396-3840
